

AIC India received the order for its production organizer suites

In September 2022 AIC India received an order for its production organizer suite for a customer in South Africa, a comprehensive range of solutions to improve the overall efficiency of the steel plant complex through:

- Efficient Raw material planning
- Sales-order processing
- Alloy optimization including heat and element balance
- Production scheduling of different units
- Production tracking
- Yield and Delay analysis
- Equipment life monitoring
- Inventory management of raw material, finished goods, work in progress
- Stores management
- Mobile workflow management
- Interface to external systems (ERP/ Laboratory)

The software is foreseen to go live by September this year.

What it means for the steel value chain

With POS Customer aims to improve his:

- Overall promise delivery capability
- Better control of Cost of production
- Adherence to Standards and Standard operating practices.

About Companies:

AIC Group is a technological partner with extensive experience and deep know-how and stands itself as a global power control supplier and system integrator designing, manufacturing, and implementing automation systems, process control, and mechatronic solutions for both greenfield and revamping projects. Focusing on the steel and metals industries for long and flat products, the Group provides cutting-edge technical solutions by handling complex project schedules and thus establishing satisfactory and remarkable partnerships through its 6 international offices. More than 45 years of modernization for endless reliability processes.

AIC decided to enter the Asian market in 2008, selecting India as a reference point and committing to invest in the country. As the CES unit for the Indian subcontinent, **AIC IN** works closely with the other units and divisions within the Group.
