

Two new important projects for a steel producer plant in Tennessee

AIC North America has been granted a PO from an important customer in Knoxville, Tennessee, with group presence in multiple locations within the US and abroad, for the supply of new AC Drives and Motors to drive the Rolling Mill stands from 9 to 15 and a new part for the Water Treatment Plant.

The supply, together with the above mentioned AC Motors for Stands will include as well new PLCs and RIOs and the integration of the new Drives Stands within the Mill control system at site.

These projects are foreseen to be installed and commissioned during 2025 Spring Time.

About Companies:

AIC Group is a technological partner with extensive experience and deep know-how and stands itself as a global power control supplier and system integrator designing, manufacturing, and implementing automation systems, process control, and mechatronic solutions for both greenfield and revamping projects. Focusing on the steel and metals industries for long and flat products, the Group provides cutting-edge technical solutions by handling complex project schedules and thus establishing satisfactory and remarkable partnerships through its 6 international offices.

More than 45 years of modernization for endless reliability processes.
