

New tying machines for Al Jazeera Steel, Oman.

ATS Mechatronics, part of AIC Group has been awarded with an order for two tying machines TMB400-45 from Al Jazeera Steel in Oman.

The tying machine TMB400 has the fastest tying cycle on the market of 6.8 seconds. The TMB400 has a knot position of 90 degrees, but this variation – the TMB400-45 – has a 45 degrees twister. It can handle a bundle diameter between 150 and 400 mm and closes the bundle with one or two ties that can be tight or loose. The wire that the machine can handle can have a diameter between 5,5 and 8mm.

About Companies:

AIC Group is a technological partner with extensive experience and deep know-how and stands itself as a global power control supplier and system integrator designing, manufacturing, and implementing automation systems, process control, and mechatronic solutions for both greenfield and revamping projects. Focusing on the steel and metals industries for long and flat products, the Group provides cutting-edge technical solutions by handling complex project schedules and thus establishing satisfactory and remarkable partnerships through its 6 international offices.

More than 45 years of modernization for endless reliability processes.

ATS Mechatronics has been acquired by AIC in 2019. This division handles tying machines, compactors and mechatronics projects. ATS Mechatronics is a proven manufacturer of hot rolling mill machines for long products, based in Trasaghis (UD) in Italy. In particular, the bundle and packs tying machines have achieved a very high level of customer satisfaction, becoming one of the leading products on the market.

Different branch but same reliability as AIC.

Al Jazeera Steel Established in 1996 is an Oman-based manufacturer of steel products and one of the leading steel product manufacturers in Oman. The core business covers tubes and merchant bars, and the products portfolio spans across black pipes, galvanized pipes, hollow sections, merchant bar mill products and rebars.
